Sage (UK) Limited: Business software and services

Trade in your software for Sage and get a 25% discount

Ever wondered if you could be getting more from your business software?

At Sage we offer a wide range of products in our Sage 50 Family that help you manage everything from finances and people to customers and business growth. Find out more about the [Sage 50 Suite](#).

And if you're currently not using Sage in your business you can now get 25% off all [Sage 50 products](#) by trading in your current software.

[Find out more about switching to Sage.](#)

How it works

- You'll need to provide us with proof of the software you are currently using - this could be a paper or electronic copy of a bill that you have received from your current supplier, or a copy of your licence agreement. Unfortunately, we can not accept copies of your existing software as proof of ownership.
- The trade-in discount is available with software that is licensed to a business (not an individual). It can not be used along with any other offer, or with the purchase of [Sage Instant / Start-Up](#) range or [Sage 50 Business / Sage 50 Financial](#) and [Sage 50 People Packages](#).

Call us free on 0800 44 77 77 to find out more or to buy.

Qualifying Software

The following table shows examples of suppliers that we offer our trade in discount against. We also offer a trade-in for the recently withdrawn **Microsoft Office Accounting** and the **Microsoft Payroll module**.

Don't worry if your software is not listed. Please call us on 0800 44 77 77 to find out if the software you are using is included in the scheme.
